

2.4.10

Trainees went to the Internship Program in terms of the condition of the Covid - 19 and in the nearest schools. During this Internship Program the principle and the implications were assigned to the instructor by the subject coordinator teacher to guide them. According to the subject coordination and the guidance of the principal, the instructor has done academic work in view of his/her method -1 and method-2 in classrooms. There was also the presence in the midright.

Apart from this there was mentoring students studying in his classroom. According to the school schedule he/she tried to judge his education work.

In addition he was indirect and possible directly to school keeping in view of the situation of Covid, some schools had under taken online e ducational work in the offline or even some schools students also made online and offline education accordingly. In some places the Parents meeting was also held in some schools.

Apart from the instructive students who are used for students associated with online or offline medium the work and homework was given taking their online and offline trails to taste their education work.

Apart from this he conducted course activities and cultural activities and the procedure for feeling the form of stand- 10 and stand- 12 boards also conducted.

Apart from this administrative operations also did. Whose list has given as below. The students received help from the academic work from the topic coordinator and the school principal to the students.

The entire program of the Internship worst to provide the greatest training in the future to create a successful teacher in the future.
