

#### 2.4.2

Students of College of education, Kharod through a set of activities as preparatory to school based practice teaching an internship,

For practice teaching formulating learning objectives all professors of this Institution taught students how to create specific and common objectives according to the content.

For content mapping unplan lesson plans observed by the school teachers hence content is not mapped. Generally during the lesson plan guidance the method teacher check students knowledge about the content.

Students prepare the lesson plan according step of lesson plan in their subject, with the help of knowledge gained by professors.

For identifying varied student diversity, they ask questions in the classroom and using different types of teaching methods. Like lecture method, observation method, demonstration method, practical method.....and using reinforcement words and activities in the classroom. And find out student diversity.

Before they going for practice lesson, demonstration lessons were given by the professors in different subjects for the student. Students to get real knowledge of teaching work.

one handicapped student name Miss. Divya Rawal was motivated and assisted according to her requirement.

Assessing students learning trainees asked questions. Professors mobilized his/her students for downloaded Shaala Mitra application, and motivated students to read a book from library.

They evolving their student for downloaded videos from YouTube for another literature related to the subjects.
