

2.4.9

In view of the Covid- 19 situation, the trainees were instructed by the college to go for internship in the schools nearest to their place of residence.

The trainees arrange their internships according to the principal from among the teachers of the school, the subject coordinators were appointed according to the trainees method-1 and 2. He also instructed the trainees about the activities related to the subject and the use of educational tools.

Apart from this the trainees was also given guidance on how to work in the co-curricular activities conducted in the school.

It can we say that with the cooperation of the teachers the train is provided accurate experience is of how to do educational work as a teacher in the real word.
