

College of Education, Kharod

2.4.2 students go through a set of activities as preparatory to school- based practice teaching and internship. Pre practis teaching/ internship orientation/ training and compasses certain significance skills and compentencies

Students of College of Education Kharod through a set of activities as preparatory to school based practice teaching and internship.

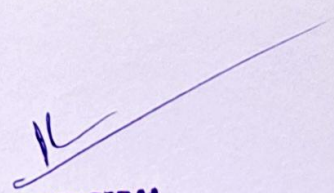

For practice teaching formulating learning objectives all professors of this institution taught students how to create specific and common objectives according to the content.

For content mapping unpland lesson plans observed by the school teachers hence content is not mapped. Generally during the lesson plan guidance the method teacher check students knowledge about the content.

Students prepare the lesson plan according step of lesson plan in their subject, with the help of knowledge gained by professors. For identifying varied student diversity, they ask questions in the classroom and using different types of teaching methods. Like lecture method, observation method, demonstration method, practical method and using reinforcements words and activities in the classroom and find out student diversity. Before they going for practice lesson demonstration lessons were given by the professors in different subjects for the students. Students to get real knowledge of teaching work. Assessing students learning trainees asked questions. Professors mobilized his / her students for downloaded Shala Mitra application, and motivated students to read a book from library.

They evolving their student for downloaded videos from YouTube for another literature related to the subjects.
